

**Building nature
using art, science, and human
resourcefulness!**

That's the guiding principle we follow.

At Sidhgreen International Pvt. Ltd, we love the green spaces on your property

We pride ourselves on providing the best landscaping and property maintenance services for commercial and residential spaces around the country. Ranging from landscape maintenance to designing and installation, our 19 years of experience in this industry is what makes us stand out amongst our competitors. This surmounting experience has also given us the knowledge required to keep your outdoor spaces looking immaculate and inviting.

Sidhgreen International Pvt. Ltd is an ISO 9001 : 2015 certified company. It is also registered under MSME, Government of India (UAM No. DL03E0007786).

Sidhgreen is everything because of its customers and the utterly talented team. Our professional landscape management team is comprised of a diverse roster of experts including turf managers, landscaping designers, horticulturalists, and landscape maintenance professionals. Our servicemen hold the caliber of turning your outdoor spaces from bland to beautiful.

For us, our clients mean everything. We also understand that everyone has different needs with their outdoor spaces. Therefore, we provide you with a customized Sidhgreen management report. This report provides all the property owners with a comprehensive analysis of the condition of their landscape, along with functional recommendations for future planning and budgeting. This report allows us to create a customized landscaping and maintenance plan for your lawn that will guarantee the pristine and affordable look of your outdoor spaces.

For every job we take up, we consider its implications on the environment. Therefore, we use only sustainable products and practices, ensuring the conservation of our precious Mother Nature and lessen the negative impact we cast on them. You can always count on our services as high-quality, eco-friendly, and something that adds an appealing look to your commercial or government space.

About us

Founded more than 20 years ago, Sidhgreen International Pvt. Ltd has today grown into one of the largest landscaping companies in the country

The company started its landscaping business by the name of 'Sidh Nursery and Farms', growing into a fully-fledged landscaping firm.

Each passing day, Sidhgreen International Pvt. Ltd has grown leaps and bounds in the field of landscaping and its other offshoots like vertical and horizontal gardening.

Our mission is to blend the art of landscaping design with the latest and most up-to-date scientific and horticultural practices. We just don't want to deliver our clients with our exceptional services, but build a personal relationship with them.

In light of the Swachh Bharat and Save Water Abhiyaan, the company has transformed its vision and become an active partner for fighting with pollution, water shortage, and global warming.

We offer a complete menu of services including landscape design, installation and maintenance, hardscape services, hydroponic farming, breeding through tissue cultures, selection of oxygen rich and carbon-absorbing plants in vertical gardening, bio-wall, landscaping, etc., and AMC services for both residential and commercial plants. We at Sidhgreen, are a small band of landscaping perfectionists that are constantly working to cultivate and enhance the beauty of nature.

At Sidhgreen International Pvt. Ltd, we don't settle for anything less and an admiring outdoor space. And neither should you.

Our Team

Sidhgreen International Pvt. Ltd is a sweet compilation of young and vibrant engineers, horticulturists, and landscape designers, all working in unison to enhance and make your lawn look appealing and alluring. During our time as the garden people, we have executed big and small projects alike. Our prime focus is to study the existing landscape and then provide you with a rewarding and bewitching outdoor space. We have accomplished success in both residential and commercial projects, thanks to our amazing team of 200+ members.

Our team consists of people who acquired expertise in different domains of vertical gardening, green walls, artificial green walls and plantation, and landscape design, installation, and maintenance services.

Slowly and steadily, we have expanded our operations to multiple cities in India, a pride for us and our members at Sidhgreen.

From the desk of the MD

Mr. Virendra Bhadana

CMD - Founder

Mr. Virendra Bhadana is an avid entrepreneur with a true passion and vision for horticulture and turning it into a sustainable livelihood. Sidhgreen International Pvt. Ltd is his brainchild, with a mission of embarking a new concept of natural beauty and green spaces in commercial and residential buildings. His admirable spirit is the reason for the company's success today. He paved the way for completing innumerable projects and developing a wide clientele network.

He has earned a degree in Bachelor of Science and has extensive knowledge in the areas of landscape and nursery management, environmental factors affecting landscapes, and growing and managing of plants.

An entrepreneur at heart and horticulturalists at the soul, he loves to shape the outdoor spaces of properties into innovative and charming lawns. His ideas and technologies have helped people to live a better and healthier life.

He has come a long way in his business. From a very small basic nursery to an international landscaping venture, he improvised many things that converted it to a high tech farm in 18 years. A self-taught man, his love for art and nature is the reason why he has excelled in this field and earned multiple state-wide recognitions.

Installation Services

Building beautiful lawns from ground up

So, you've settled on a landscape design of your dreams. Possibly, it includes a sweeping lawn, undulating landscapes, a brick terrace, or winding walkways. Or perhaps, it features a shady vine-covered arbor, a fountain, some kitchen herb plants, or a colorful bed of flowering perennials. No matter the design, we will play our part in fulfilling it. Watch it come to a bewitching life before your eyes.

That's where Sidhgreen 's experienced and talented professionals come into play installing the most glorious lawns you have ever seen before.

From planning to installation of vertical gardens, landscape, irrigation systems, hardscapes, and lighting, our expertise to complete your landscape installation project on time and budget is remarkable. And that, we can guarantee to you.

Installation Services

Our installation services include

Vertical Gardens

Growing plants on a vertically suspended panel using hydroponics. It can be free-standing or attached to a wall. It is a great green space area for office premises, a lush pop of color in the otherwise busy alleys. We design, install and maintain vertical gardens for residential and commercial spaces.

Landscape Installation

We take charge of your landscape and give it a new view. We install large trees, small trees, hedgerows, screens, shrubs, mixed borders, perennial beds, edible landscapes, vegetable gardens, and season containers. Our landscape plans are customized for specific areas.

Irrigation Installation

A lawn looks wondrous until it receives the right irrigation systems. We design, install and maintain quality irrigation systems. Our drip and sprinkler irrigation systems are customized depending on the size and the shape of different lawns. Using our irrigation installation services will help you in saving water, time, and money while ensuring a beautiful and aesthetically pleasing green lawn.

Installation Services

Hardscape Installation

Our green services are not limited to landscapes but cover hardscapes as well. Our able designers and masons work on hard surfaces like bricks, walls, patios, steps, entryways, walkways, fire pits, and BBQ areas. We carefully select the materials for a harmonious outdoor environment.

Landscape Lighting

The right lights can have a lot of impact on your lawn. Adding landscape lights and landscape music makes your property secure and enhances its beauty. Our landscape lighting services install path lights, uplights, accent lights, wall lights, and safety lights. Our love for the environment is infinite. Therefore, we offer solar panels installation services to keep your lights up and running. We offer landscape lighting maintenance services for residential and commercial properties. We use the right quality light fixtures and components from top manufacturers like Nightscape and F/X, we also supply all civil material supplies.

Maintenance Services

Loving care for landscapes with tender love

Maintaining a green lawn presents several challenges. Heat stress, mildew, fungus, insect pests, plant diseases; all are a part of the dynamically changing ecosystem of a landscape. This can create havoc with turf, shrubs, and trees.

Our team consists of landscape gardeners and project managers that provide tender loving care to landscapes for 20 years and counting. Today, our client roster includes prominent names from the market.

From regularly scheduled mowing and blowing to periodic pruning, edging, and trimming to the application of fertilizers, pesticides, and herbicides, Sidhgreen provides you a total blockbuster approach to landscape care that is simply worry-free and hassle-free.

No matter if you need a little help or a lot, choose Sidhgreen to maintain your precious landscape and your peace of mind.

Maintenance Services

Our maintenance services include

Lawn Mowing

Cutting or mowing of the lawn, trimming along beds and paved areas, blowing or sweeping of all the paths, patios, and driveways.

Tree and Shrub Care

A comprehensive shrub and tree care services include hedge trimming, bush trimming, fine pruning, Tree trimming/pruning, and planting.

Lawn Clean-ups

Removing debris is really important to reduce the risk of unwanted insects and molds reducing the beauty and thriving power of your lawn. Our lawn clean-ups are focused on clearing off the outdoor debris and help in the upkeep of your yard.

Lawn Services

Our lawn services include analysis, treatment, and servicing of your landscape. Processes like thatching, aeration, seeding, and revitalization are followed to engage you in a perfectly healthy lawn space.

Maintenance Services

Lawn Maintenance

Every lawn owner wants a green and vibrant lawn space. Our lawn maintenance services involve taking care of your landscape with regular cleanups, maintenance, fertilization, garden care, snow removal, and shrubs, and tree care services.

Fertilization

The right fertilizers help in providing your lawn with the necessary nourishment. We formulate our own fertilizers to maintain the beauty of your lawn. We provide synthetic, organic, and hybrid fertilization programs.

Snow Removal

A harsh climate can hamper the quality of your lawn. We provide snow and ice removal services using commercial high-grade equipment like skid steers, front-end loaders, snowplows, pushers, heavy-duty trucks, and other equipment. We will take care that bad weather doesn't hamper the beauty of your lawn.

Garden Care

These include taking care of your trees and shrubs by following processes like hedge trimming, bush trimming, fine pruning, Tree trimming/pruning, relocation of shrubs and floral plants, and planting of new shrubs and trees.

Sanitization & Pest Control Services

A pest-infested lawn is not a healthy place. Therefore, we provide residential and commercial pest control services. We offer customized pest control services against cockroaches, rodents, termites, crickets, bedbugs, fly, and other pests. Moreover, we also include sanitization services like disinfection treatment, specialist disinfection, infection control services, and mobile disinfection services.

Our pest control and sanitization services are customized for corporate offices, hospitals, industries, sheets, bedspreads, furniture, sofa, etc. Our services can combat both airborne pathogens, and contaminated surfaces to disinfect large surfaces.

Soft Landscaping Services

Our soft landscaping services include the installation of trees, larger shrubs, and herbaceous plants, giving a sense of flow and direction to the landscaping elements. We provide tree, shrub, bulb, and herbaceous plants, turfing shrub border regeneration, and quality grade screened topsoil.

There are several benefits associated with choosing us for your lawn's soft landscaping services.

Our plants are customized for every lawn. They are designed to suit the needs of your garden after studying the soil pH, soil structure, aspect, and drainage systems.

The planting pattern is designed to keep the local wildlife in mind. We provide a planting scheme that supports insects, wild birds, and local wildlife.

Our plants include your peace of mind. We will arrange for the turfs and other plants delivered at your doorstep. We will revolve around our plans to suit your time requirements. We also guarantee the plants and trees installed for a period of 12 months, subject to conditions.

Our services are value for money. We source the trees, shrubs, herbaceous plants, grasses, herbs, fruit trees, and water plants from our nurseries at a cost-effective price.

Once you hire us, taking care of your plants is our duty.

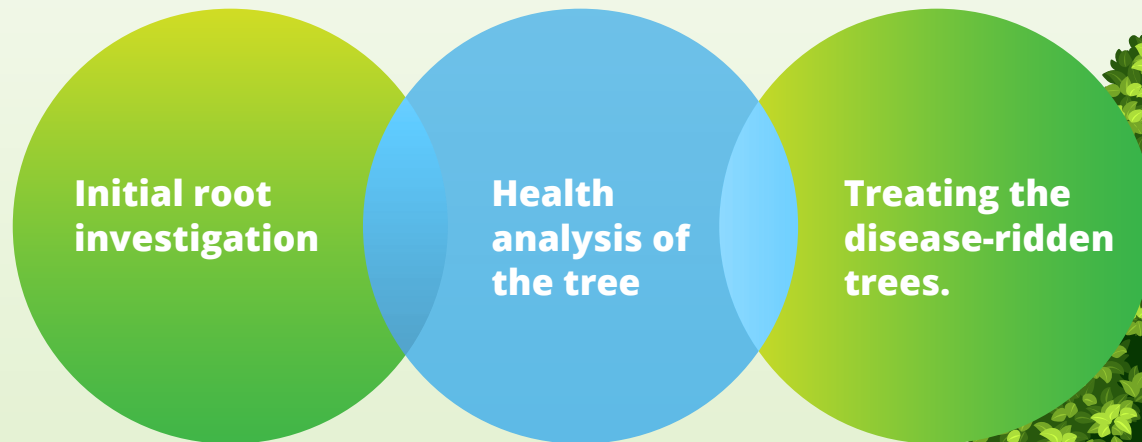

Tree Transplantation Services

Tree transplantation is the latest technique followed for tree conservation. In this process, we analyze how the tree responds to the two-tier system, and a new system is then carefully encapsulated into the root ball.

The entire process is called out in three steps

The following are the steps involved

- Site selection, soil sampling, and testing. The condition of the soil where the tree has to be transplanted is checked. Features like soil pH, light conditions, moisture, wind exposure, and improved drainage.
- The roots of the tree are trimmed to facilitate the growth of new roots.
- The tree is packed and feed timely with soluble fertilizers and water. It is then monitored for any further growth.
- The tree is transplanted to the new soil region.
- The tree is mechanically supported until it grows roots in the soil area. Timely pruning is carried out.
- Proper post-transplantation treatments are provided for proper nourishment and growth.

Waterscape Services

We provide efficient and innovative solutions for a smart irrigation system, water fountains, water features, and swimming pool. Once we have a look at the site, we know the type of irrigation system it needs. Be its irrigation system, commercial water feature, or misting system, we know that quality waterscape projects can be accomplished only with qualified engineers, supervisors, and skilled labor team. The best quality products are selected according to the special requirement and criteria to meet the high standards of our clients. We specialize in providing water engineering services like contracting and consulting of a smart irrigation system, fountains & water features, mist cooling systems, swimming pools, and solar panel washing systems.

We provide high-quality services to compensate for the beauty of your landscape.

AMC Services
